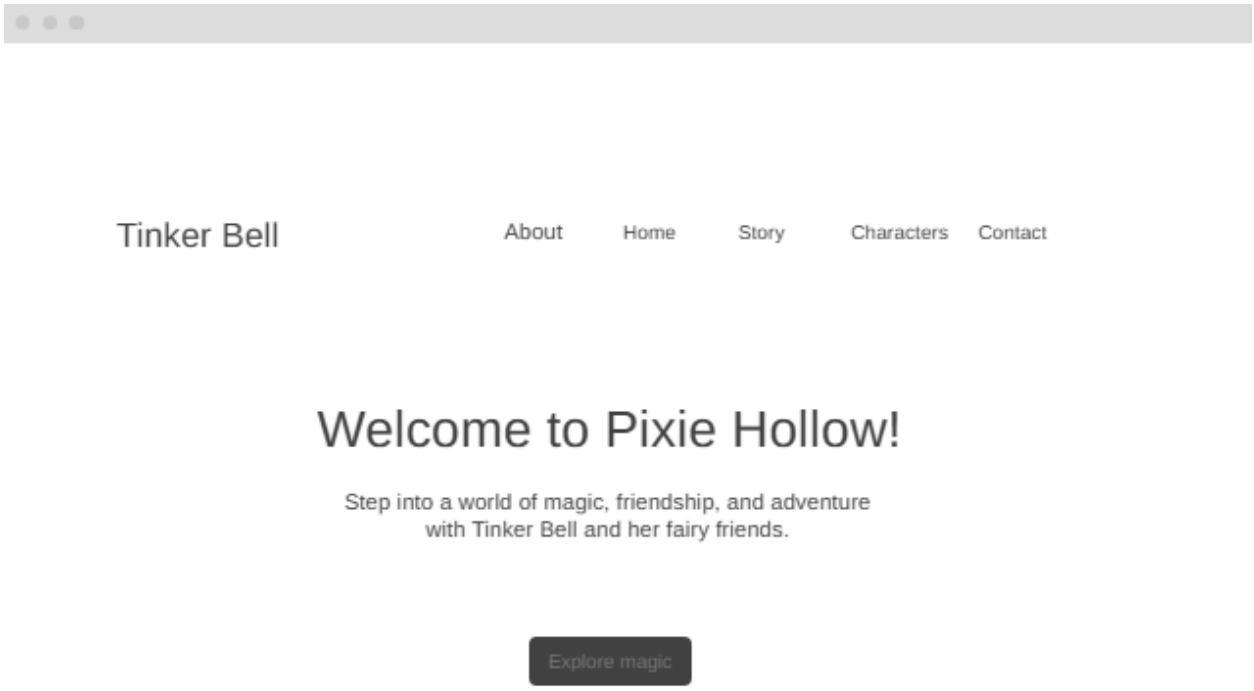
Assignment No:4

Aim: Prototype and Wireframe

Problem statement:
Students are expected to choose a problem statement and identify – Types of users going to use (age, experience, environmental conditions during use etc.) Minimum 3 scenarios of use Create paper-based prototypes for scenarios. Use any open-source tool to wire frame scenarios.



Explore magic

The Story of Tinker Bell

Tinker Bell is a curious and spirited fairy who was born from the first laugh of a baby. Living in Pixie Hollow, she discovers her talent for tinkering and inventing. Through adventures in Neverland and beyond, Tinker Bell learns the true power of friendship, courage, and a little pixie dust.

Meet the Fairies

Tinker Bell
-A lively tinker fairy with a talent for fixing and inventing

Silvermist
-A gentle water fairy who loves rivers and streams.

Rosetta
-A garden fairy with a warm heart and love for flowers

Iridessa
-A light fairy who brings sunchine where she goes

Fawn
-An animal fairy with a gift for understanding creatures of all kinds.
